ABOUT US!

With over *15 years of legacy in interior design*, we have been transforming ordinary spaces into extraordinary experiences. Our designs are backed by a solid foundation of principles in design. *From years of experience with our hands and elevated by the depth of knowledge on how space can dictate mood, movement, and meaning.* From beautiful home interiors to intelligent commercial buildings, we have been privileged to work on a diverse range of projects, each one different, each one an opportunity to make a new idea real. At the centre of it all is a definite and enthusiastic vision: To build spaces that express personality, promote well-being, and reconcile form and function. *We think that design is not about filling a space, it's about telling a story, stirring emotion, and conveying a sense of belonging.* Our aesthetic is flexible but unique. We don't imitate trends blindly; rather, we couple classic style with contemporary sensibilities. *Each project starts with listening to your lifestyle, your goals, and the heart of the space.* From there, we develop a design experience that is collaborative, considerate, and full of imagination. What distinguishes us is not only our design skill but our devotion to detail, craftsmanship, and an effortless process of execution. *We collaborate closely with clients, architects, artisans, and vendors in order to bring every square inch of your property into existence with love, care, and purpose.* Looking to the future, we continue to be devoted to adapting to new materials, technologies, and concepts while adhering to our fundamental principles: authenticity, elegance, and functionality.

CLIENT TESTIMONIALS

"This is what real customer delight looks like!"

We're beyond happy with our new 2 BHK flat in Keshav Nagar, which was furnished beautifully by Shree Ram Furniture and Designer. From day one, Krishna and his team were professional, friendly, and completely committed to bringing our dream home to life. What stood out? Total transparency, high quality materials, excellent craftsmanship, and sticking 100% to the timeline, the whole flat was done 2 months before Diwali, just like they promised! Their attention to detail and willingness to work with our ideas made the whole experience enjoyable and stress free. Honestly, we couldn't have asked for a better team. If you're looking for a one stop solution for your home interiors, look no further. We highly recommend Shree Ram Furniture and Designer!

Thanks again, Krishna and team, they have created a home we'll cherish for a lifetime ☐

CLIENT TESTIMONIALS

Hi Krishnamurari,

Sharing my feedback as a token of appreciation with you on your interior design work at my wakad site.

Recently, I brought a 2 bhk flat and wanted to hire an interior designer who will come up with fresh ideas, yet be simplistic and classy. Came across Krishaji through one of my friends.

Right from our first conversation, he has been very professional. He was prompt to visit our house even when I am not in Pune and was patient enough to listen to all our requirements. He advised us to visit a few of his recently completed projects before deciding to go with him. This gave us a lot of confidence.

He has a super team who are willing to listen to your needs and he always gives practical advice in terms of what is best for you keeping in mind the budget constraints. He also has been accommodating to our changing demands as customer delight is at the top of his list, yet he didn't deviate from the original quotation. It's been an absolute pleasure to have our apartment interior done by Krishnaji and the team and our apartment looks more beautiful than our explanation.

Best Regards,
Gaurav Patil
